Office Action Summary

1. Instant claims 1 and 4 are considered to be patentable over the applied prior art in view of the submitted Declaration under 37 CFR 1.132 wherein carbon black ball milled for 24 hours is compared to colliding at 150 MPa as required by the instant claims. While applied reference Bando et al. does not disclose the time of ball milling, the cited reference Hara discloses ball milling carbon blacks as in Bando et al. for a period of 6 hours.

Since ball milling for 24 hours as in the Declaration would produce better dispersion than ball milling for 6 hours as used in the prior art, i.e. Hara et al., the Declaration shows that the carbon black dispersions of the instant claims are materially different with better properties than the carbon black dispersions of the applied prior art.

2. This application is in condition for allowance except for the presence of claims 5-17 to an invention non-elected with traverse on Nov.8, 2004. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144).

Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.
